

Fast, reliable parking made easy

Superlot parking allows you to have a parking spot to yourself, for an hour, a day, or every day for as long as you want.

Reserve a spot online and let our autonomous garage do the rest.

Superlot Parking Garage

Reliable parking and reservations
in a state of the art parking
garage

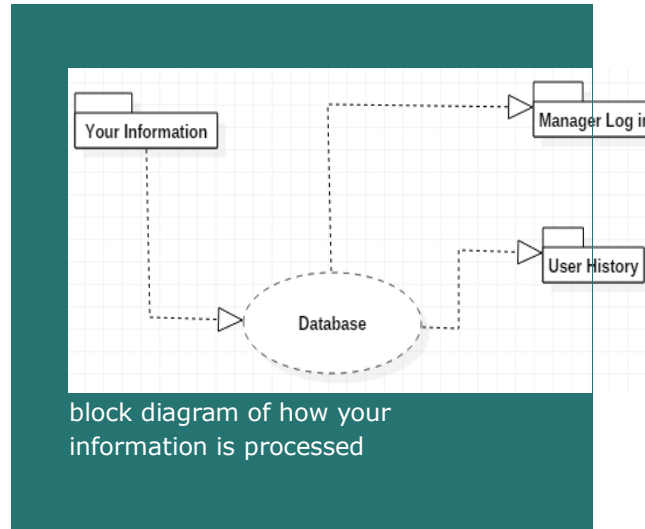

Our system is the best

This garage will utilize the latest software and hardware to make the most user friendly parking experience. Our reservations are guaranteed. Once you register, you will receive a SMS text confirmation to your cell phone, and upon entering the garage, will be directed straight to your spot by our own navigation system.

Pay what you want

Our website registration has a plan for everyone for every situation. Reserve monthly, or hourly with no contract, or even walk-in with no prior hassle. You can even charge your car while you're parked with our new eco-charging stations for electric cars.

Division of Work

Annette Brucato – flyer, slides, introduction, SMS text confirmation

Lingyu Li – navigation algorithm, group management, map view

Yunhao Shi – registration, account database table, design

Shen Wang – console interface, database management, design

Zhiheng Zhu – manager Interface, statistical data keeper, design

Zhihao Guan – plan of work, reservation database, design

Benefits:

- Your information is safe with us. It will never be shared, sold, or used outside our system.
- Choose the exact spot you want from an easy to read view of the garage, and it is guaranteed to be waiting for you upon arrival.
- Pick a payment plan that is right for you
- Charge your electric car
- Receive SMS confirmation and notifications
- Share your spot
- No need for confirmation numbers, our license plate readers will recognize you
